Technical Skills

- **Languages & Databases:** Python, MySQL, R
- **Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn
- **Data Analysis Techniques:** EDA, Data Cleaning, Data Wrangling, Descriptive Statistics
- **Visualization Tools:** Tableau, Advanced Excel (PivotTables, Dashboards)
- **Other Tools & Skills:** Git, GitHub, Data Analysis, Business Analysis

Technical Projects

Time Series Analysis on Stock Price Data

Apr 2025-May 2025

- Performed EDA and cleaned **12+ months of Apple stock data** using Pandas, reducing preprocessing **time by 30%**.
- Applied **STL decomposition**, moving averages, and **stationarity tests** to uncover trends in 12+ months of stock data.
- Enhanced forecasting accuracy and **visualized seasonal patterns**, improved interpretability by **40%**.

Data Warehouse Development using SQL Server

Mar 2025-Apr 2025

- Designed and implemented a **3-layer data warehouse (Bronze, Silver, Gold)** using **SQL Server** to organize CRM/ERP data.
- Developed **5+ ETL pipelines** and modeled **10+ Fact and Dimension** tables using a star schema, enabling BI insights across 3 departments.
- Optimized **SQL joins and stored procedures**, improving **query performance by 60%** and enabling stakeholder access to clean, analysis-ready data.

Sales Performance Analysis using Microsoft Excel

Dec 2024-Jan 2025

- Cleaned and transformed **10,00+ sales records** using Excel formulas, Pivot Tables, and formatting, increasing **report consistency by 40%**.
- Built an interactive dashboard **tracking 6 key KPIs**, used weekly by **3 teams to monitor** revenue, profit, and region-wise sales.
- Automated manual reporting tasks, simulating a **50% reduction in reporting time** using advanced Excel features.

Sales & Customer Insights Dashboard using Tableau

Sep 2024-Oct 2024

- Built an interactive Tableau dashboard using 4 real-world datasets · Analyzed sales, profit, and customer segments
- Simulated a **50% improvement in reporting efficiency** · Visualized **6+ KPIs** with filters, drilldowns, and calculated fields

CERTIFICATES

SQL for Data Science

May 2025

Coursera- <https://www.coursera.org/account/accomplishments/certificate/DSU8DY9DW190>

Data Science Masters

Dec 2024

PW Skills- <https://pwwskills.com/learn/certificate/84af8a14-7483-4ffd-be12-a057301fc8ad/>

Tableau

Aug 2024

Coursera- <https://www.coursera.org/account/accomplishments/certificate/ZLM0PNNOWDD4>

Education

LOVELY PROFESSIONAL UNIVERSITY

Phagwara, Punjab

Bachelor of Science in Information Technology

Aug 2022-Sep 2025
